

FEATURES COMPARISON

Smart Controls

Downloadable pull data reports replace handwritten logs and records. Customizable software — your download, your way. Pre-program pulls on an easy-to-read weatherproof control screen. Monitor pulls in real-time.

Hydraulic Jacks

4 different models — 48" & 60" jack options for both 1/2" and 0.6" strand sizes — each packing 46,000 pounds of tensioning power.

Multiple Strand Sizes

Depending on model, jack can accommodate either 1/2" or 0.6" wire strand.

Emergency Shut-Off

And other intuitive safety features to keep work crews safe.

Universal Hitch

Easily take the SSS to where the work is being done. *Cart is optional on Lite Model.*

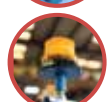

Accessible Ports

Easy access to system electronics and hydraulics.

Convenient Storage

Helps keep the work area orderly.

Beacon Light & Horn

Helps maintain a safe work environment.

Adjustable Work Lights

For safe operation after the sun goes down.

Forklift Pockets

For easy loading and unloading at the work site.

Professional-grade Couplings

Built to last in demanding work environments.

Retractable Hoses & Cords

For convenience and keeping an uncluttered work area.

Durable Tires

Rugged foam-filled tires help ensure the SSS can go the distance. *Cart is optional on Lite Model.*
